

NEWBORN SILICONE DUMMY

PRODUCT MANUAL

English

Product Name: Newborn Silicone Dummy

Material: Food Grade Silicone

Dimensions: 51 x 50 x 37 mm

Colour: Clear

Recommended Age: 0-3m

Standard: EN1400

Product Description:

Soothe your little one with our Newborn Silicone Dummy! It is made from one complete piece of silicone that is soft, safe, and free of harsh chemicals. No more hard plastic parts that trap moisture and leave nasty rashes - our dummies are gentle on skin, gums and new teeth. If your child is teething, chuck our Newborn Silicone Dummy in the freezer to provide added cooling relief to those little aching gums!

Features:

- Top-rated by new mothers and readily-accepted by newborn babies.
- Specially created to soothe little ones without interfering with breastfeeding.
- Carefully designed to provide a gentle and comfortable fit for our littlest ones.
- Lightweight with a U-shaped shield to promote natural breathing.
- Open space inside nipple so you can use your finger to calm your baby and help them to suck.
- Made of soft and safe 100% food grade silicone.
- Safe in microwaves, boiling water and sterilisers.

Cleaning and Care:

Before first use, place the dummy in boiling water for 5 min, allow to cool, and squeeze out any trapped water from the dummy. This is to ensure hygiene. Clean before every use. Never dip the teat in sweet substances or medication, your child may get tooth decay. Replace the dummy between one and two months of use, for safety and hygiene reasons. In the event that the dummy becomes lodged in the mouth, DO NOT PANIC; it cannot be swallowed and is designed to cope with such an event. Remove from the mouth with care, as gently as possible. This product can be sterilised with any steam sterilising system or by boiling in water for 2-3 minutes. Other common methods of heating, cleaning, storage and use not listed in this manual may damage the product. Please do not use bleach-based cleaners or tablets to clean this product. Only soft bristle brushes or soft sponges should be used to clean this product. Hard scourers may scratch the surface. Store product in a cool, dry place and avoid direct sunlight.

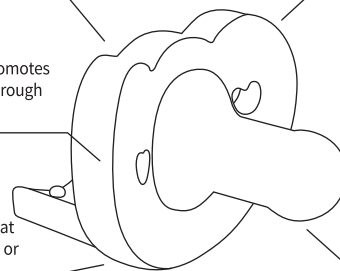

Made of 100% soft food grade silicone which is gentle on skin.

One piece design with no joints, cracks or edges for bacteria to grow.

U-shaped design promotes natural breathing through the nose.

Ergonomic shape that doesn't leave marks or a rash.

Mimics the shape of a mother's nipple.

Caution:

For your child's safety and health WARNING!

- ⊙ Inspect carefully before each use, pull the dummy in all directions. Throw away at the first signs of damage or weakness.
- ⊙ Only use dedicated dummy holders tested to EN 12586. Never attach other ribbons or cords to a soother, your child may be strangled by them.
- ⊙ Check product condition regularly - replace if this product shows any signs of damage.
- ⊙ Infants are to be supervised at all times.
- ⊙ Please do not use this product for anything other than its intended use.
- ⊙ Sterilise after any illness.
- ⊙ Do not leave dummy in direct sunlight or heat, or leave in sterilising solution for longer than recommended, as this may weaken the product.
